

# UnitedHealthOne Covid-19 Testing

UnitedHealthOne covers COVID-19 testing with no cost share, and the office visit and treatment will be covered based on the benefit plan.

This applies to members with a Grandfathered or Non-Grandfathered health insurance plan effective prior to 2014 (including Saver/Basic plans), Short Term Medical, and Tri-Term Medical.

TESTING for COVID-19 coronavirus will be covered as a PAID expense.

- Applies to In-Network Doctors Only
- Applies to Short-Term Medical and Tri-Term Medical Plans Only (If not already pre-existing)
- Testing Only – Not subject to Co-Pays, Deductibles or Coinsurance
- Any office visit charges, other tests, or other labs or services will be subject to their Medical plan's provisions

If it's a Health Protector Guard plan, the diagnostic lab test for COVID-19 qualifies for the indemnity benefit shown on the policy's data page, the same as any other lab test that is ordered by a medical provider, subject to the terms of the supplemental/ancillary plan in question.
